## **Ally Invest Market Data Disclosure and Market Data Subscriber Agreements**

Ally Invest Securities LLC (Ally Invest) provides customers with real-time or delayed quotes, last sale prices, volume, other current and historical pricing information, research, and other data (collectively, "Market Data") obtained from Securities Information Processors ("SIPs") (i.e., Consolidated Tape Association (CTA), Options Price Reporting Authority (OPRA)); other U.S. securities and commodities futures exchanges, including the New York Stock Exchange (NYSE), The Nasdaq Stock Market (Nasdaq), CME Group, Inc. (CME), and Cboe Futures Exchange, LLC (Cboe); and CUSIP Global Services; and research providers Morningstar Research Services LLC, Morningstar, Inc., or their content providers (collectively, "Market Data Providers"), through agreements between Ally Invest and Market Data Providers.

Ally Invest customers agree that use of the Market Data is subject to the terms and conditions of the relevant subscriber agreements. Ally Invest customers may receive Market Data on either a real-time or delayed (by at least 15 minutes) basis based on eligibility and fees paid. Based on the customer's market data eligibility, equities data is either real-time Cboe One or Consolidated Tape Association and Unlisted Trade Privileges data from the SIPs, depending on your market data status. OPRA provides options data as consolidated data. The OTC Markets Group provides OTCQX, OTCQB, and OTC Pink data. Market Data displayed on the Ally Invest trading platform is the exclusive property of the respective Market Data Providers. Market Data may not be copied or otherwise reproduced, repackaged, further transmitted, transferred, disseminated, redistributed, resold, or stored for subsequent use for any such purpose, in whole or in part, in any form or manner, or by any means whatsoever, without prior written consent by the appropriate Market Data Provider(s).

The Market Data Providers reserve all rights to the Market Data they distribute to Ally Invest. Market Data provided by Ally Invest does not constitute investment advice and any reference to a particular investment, security, futures contracts, or futures option is not a recommendation to buy, sell, or hold any investment or security or to make any other investment decision. Past performance is not a guarantee of future results.

Neither Ally Invest nor any participating Market Data Provider guarantees or makes any warranty of any kind, express or implied; nor warranties of merchantability or fitness for a particular purpose, or use; or regarding the timeliness, sequence, accuracy, or completeness of the Market Data you receive. Market Data Providers and Ally Invest are not liable for any losses arising out of or relating to: (i) any inaccuracy, defect, or omission of Market Data; (ii) any error or delay in the transmission of Market Data; or (iii) any interruption in Market Data due to any cause beyond the control of Ally Invest or any Market Data Provider respectively.

Ally Invest may, at any time and for any reason, without notice and to the extent permissible under relevant rules and/or regulations, terminate or otherwise restrict a customer's access to any or all Market Data services provided by the Market Data Providers through Ally Invest, including real-time and/or consolidated SIP data services.

Unless otherwise noted, news, commentary, Market Data, and research reports are from third-party sources unaffiliated with Ally Invest and are provided for informational purposes only. Ally Invest does not endorse or adopt third-party content. Neither the Market Data Providers nor Ally Invest guarantee the adequacy, accuracy, timeliness, or completeness of the Market Data, nor will they be liable to any user or anyone else for any interruption, inaccuracy, error, or omission, regardless of cause, or for any damages (whether direct or indirect, consequential, punitive, or exemplary) resulting therefrom.

A "Non-professional Subscriber" refers to any natural person (the definition of a natural person excludes corporations, trusts, organizations, institutions, and partnerships) who receives market data solely for their personal, non-business use and who is not a "Securities Professional" meaning that the person is:

- a. Not registered or qualified with the Securities and Exchange Commission, the Commodities Futures Trading Commission, any state securities agency, any securities exchange or association, or any commodities or futures contract market or association;
- b. Not engaged as an "investment adviser" as that term is defined in Section 202(a)(11) of the Investment Advisors Act of 1940 (whether registered or qualified under that Act); and
- c. Not employed by a bank, or another organization exempt from registration under Federal and/or state securities laws to perform functions that would require them to be so registered or qualified if they were to perform such functions for an organization not so exempt.

If an Ally Invest customer uses Market Data for more than personal investment purposes, the customer will be considered a Professional market data subscriber and restrictions to certain Market Data will apply.
