## Layered Protection Against Theft

In the United States, two vehicles are stolen every minute. This innovative system provides layered protection against theft and provides you with benefits in the unlikely event it is stolen.

Invisible Phantom Footprints® protects vehicles on six different areas with permanent, tamper resistant labels. The labels are impossible to remove intact and any attempt will be obvious, alerting law enforcers that the vehicle is stolen property. Combined with Theft Avert® glass window etching, your car can be covered on twelve different areas, alerting thieves that your car is protected. Utilizing this layered approach to protect your vehicle investment makes it very difficult to steal.

Protecting your investment with these anti-theft programs will give you peace of mind as well as increase the likelihood of your vehicle being recovered should it fall into the wrong hands. As an added benefit, if your vehicle is stolen, this protection may provide you with cash benefits. This coverage may qualify you for an insurance discount. Ask your dealer for details.
